

Making the Right List

Ways to Build a List

4 x 4 Ways to Build A List

- Make sure you have
 - Four Cal States
 - Four UCs
 - Four to Eight Privates
 - Four (at least) Scholarships
 - Find them at each college
 - Find outside ones

Factors to Include

- Affordability
- Ability to get in
- Academic options
- Location
- Size
- Extracurricular options
- Rah-rah
- Career Readiness
- The Perfect Balance

Example: Engineering

Do Your Research-Marquette

The screenshot displays the website for the Opus College of Engineering at Marquette University. The top navigation bar includes the college's name and logo, and links for MARQUETTE.EDU, SEARCH, CONTACTS, and A-Z INDEX. A secondary navigation bar lists categories: ACADEMICS, STUDENTS (highlighted), FACULTY & STAFF, RESEARCH, INDUSTRY, ABOUT, and GIVE. The main content area is divided into two columns. The left column, under the 'STUDENTS' header, lists 'PROSPECTIVE STUDENTS' and 'CURRENT STUDENTS' with their respective sub-topics. The right column features an 'E-LEAD' section with a list of links and a 'CONTACT' section with names and titles of staff members. A large banner at the bottom of the page contains the slogan 'GUIDING CHANGE. SOLVING PROBLEMS. SERVING OTHERS.' and the 'E-LEAD ENGINEERS IN THE LEAD' logo. The footer includes the URL 'www.marquette.edu/engineering/students.php' and a partial sentence about the program's focus.

How to Apply

The Grand Challenges

In 2008, the National Academy of Engineering (NAE) established a set of fourteen Grand Challenges that engineers face in order to make progress toward a sustainable world - one that provides all people with more than just their basic needs and aspires to a higher level of living. The fourteen Grand Challenges range across disciplines and incorporate aspects of life ranging from the developing world to the developed world. It is crucial that future engineers acknowledge these challenges as pressing issues that need to be addressed. For more information on each individual Grand Challenge below, you can follow the links to the National Academy of Engineering's website description of each challenge.

Sustainability

Make Solar Energy Affordable: Today, solar energy is used to power less than one percent of the world's overall energy, but has the potential to do so much more.

Co-op Experiences

Matt Wiese '18, a mechanical engineering B.S./M.S. junior, spent a six-month co-op at NASA's Goddard Space Flight Center research lab helping to design ground-support equipment. Cooperative education enables students to balance theory with practical experience.

MIT is the best place in the world to be an engineering student — just ask the people studying here.

Want to make something? Go to the [Maker Lodge](#) and get trained to use the best equipment available anywhere, or starting in 2018, take your idea to MIT.nano and build it [one atom at a time](#).

Want to start a company? Go to [MIT Sandbox Innovation Fund Program](#), and we'll give you a little money to catapult your idea.

Want to do research? You're in good company: 90 percent of our undergraduates [work alongside faculty](#) to make the discoveries that improve life and make a better world for everyone.

Want to build your own course of study? Check out our flexible degree options in [aeronautics and astronautics](#), [chemical engineering](#), and [mechanical engineering](#). Or take advantage of [MISTI](#) and [globalize your education](#).

UCSD

How Do I Find These Schools?

- **How do I find these schools?**
 - First, you need to know match colleges. These are based on your academic profile—including grades and test scores.
 - They also depend on level of involvement in activities and work. Artistic and athletic talents can make a difference.
 - Passions also matter—as there are schools for African American Students, all women, technology, and more.

Regional Admissions Counselors of California (RACC)

The screenshot shows the RACC website header with the logo and tagline: "Regional Admission Counselors of California, Promoting out-of-state educational opportunities for Californians." It also lists "RACC PARTNERS" and "RACC MEMBERS". The main content area is titled "RACC EVENTS" and includes a paragraph about event requests. Below this are three sections: "PRESENTER" with a photo of a woman and a "Request Presenter" button; "MINI-FAIRS" with a photo of a booth and a "Request Mini-Fair" button; and "CASE STUDIES" with a partially visible photo and button. A list of requirements for hosting an event is also present.

Regional Admission Counselors of California
Promoting out-of-state educational opportunities for Californians

RACC PARTNERS
RACC MEMBERS

RACC EVENTS

RACC receives a significant number of event requests and we try to accommodate all of them. Please submit only one event request per semester.

PRESENTER

Tap into the varied expertise of the RACC membership and request a speaker on almost any topic related to the college search and college admission process for your event. When filling out the request form, select from the popular topics listed. If you have another specialty topic not listed, please use the "Other" box and we will do our best to find a speaker for that topic.

[Request Presenter](#)

MINI-FAIRS

Approximately 10 - 24 RACC schools visit a high school at the same time and set up tables, college fair style. The location can be anywhere on campus and will be determined by the counselor/school. In the past the mini fairs have been held during lunch, break, or free periods in/around a cafeteria, a library, classroom, lawn, etc.

[Request Mini-Fair](#)

As an additional component to the Mini Fair, we welcome the opportunity to present to large groups of students before the fair begins. The presentation can be done in as few as 20 minutes or as long as an hour.

What's needed to host this event on your campus?

- Tables to accommodate the participating colleges.
- One chair per table.
- An auditorium/area with AV equipment and a sound system are ideal for the optional presentation.

CASE STUDIES

- Presenters
- Mini-Fairs
- Case Study Nights
- Considering Out-of-State College Presentation

Internal Merit Scholarships

The image is a screenshot of the Emory University website's Undergraduate Admission section. At the top, the text "EMORY UNIVERSITY" is displayed in white on a dark blue background. Below this, a navigation bar contains the text "Office of Undergraduate Admission" in yellow, and three buttons labeled "DISCOVER", "VISIT", and "APPLY" in red. The main content area features a sidebar on the left with a dark red background and white text, listing various admission topics. The main heading "Merit-Based Scholarships" is centered above a large photograph of a student walking on a brick path. To the right of the main content, there is a vertical image of a wooden bench in front of a tree with purple blossoms.
